

Release Summary

SpeedFill, Mar 10, 2025

Key User Stories and Acceptance Criteria

1. As a job seeker, I want to easily provide my personal and professional information so that I can receive relevant assistance in my job search.

Acceptance Criteria:

- Users are allowed to upload their resume and the job description to get a resume analysis.
 - Users can copy-paste or upload a resume.
 - Users can use a job posting URL or copy-paste a job description.
 - Users can generate custom cover letters tailored to the job.
2. As a user, I want the website to remember my information so that I can avoid repeating tasks and save time.

Acceptance Criteria:

- Users must be able to sign up and log in.
 - Users can upload a default resume.
 - The default resume will automatically be applied when using the website.
3. As a user, I want to be able to access and reuse previous documents so that I can reuse and reference them later.

Acceptance Criteria:

- Successfully generated Resume Analysis and Cover Letters are stored for later access and viewing.

Known Problems:

Problem 1: Our application does check not check for valid input information

- Invalid job URL are not properly handled
- No filtering of forms input (determine if real resume and proper job description)

Problem 2: Some known edge cases demonstrate or generate unexpected results

- Uploading erroneous files is not working

- Accessing unauthorized pages (/dashboard & /upload when not logged in) shows routes briefly before rerouting

Problem 3: Default resume may not automatically be uploaded on rare occasions

Problem 4: /sign-out route occasionally 404s

Problem 5: Result page may not always show the most recently generated Cover Letter / Resume Analysis

Product Backlog:

1. As a user, I want an extension to save my information so that I can easily access relevant information about myself.
2. As a user, I want an extension to autofill common questions so that I can save time applying to jobs.
